

## Purposeful scientific research is a basic pillar for the advancement of Iraq

### The Contents

|    |                                                                                                                                                                                                         |         |
|----|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|---------|
| 1  | <b>Effect of royal jelly and Propolis on Methicillin- resistant <i>Staphylococcus aureus</i> (MRSA) bacterium isolated from burn patients</b>                                                           |         |
|    | <i>Manal Dheyaa Al-Zoubaidy, Ahmed Ali Essa, Qanat Mahmood Atiyea.....</i>                                                                                                                              | 1 - 4   |
| 2  | <b>In vitro Comparison of the Effect of Zinc Oxide Nanoparticles and <i>Hibiscus sabdariffa</i> Extract on <i>Streptococcus mutans</i> Isolated from Human Dental Caries</b>                            |         |
|    | <i>Arshad Mahdi Hamad, Qanat Mahmood Atiyea, Wiaam Abid Jwair, Adil Hussein Dalaf, Awatif Saber Jasim, Sherif Mohamed El saigher Ahmed Ragab, Zakaria Hassan saad Hassan, Layth jasim Mohammed.....</i> | 5 - 14  |
| 3  | <b>Detecting some virulence genes in <i>Pseudomonas aeruginosa</i> isolated from different clinical sources</b>                                                                                         |         |
|    | <i>Hala Abdel-Khaleq Awad, Asmaa Hader Fadel.....</i>                                                                                                                                                   | 15 - 19 |
| 4  | <b>The relationship of iron-regulated hepcidin hormones in patients with atherosclerosis</b>                                                                                                            |         |
|    | <i>Aseel A. Mustafa, Iktifaa A. Muhammad.....</i>                                                                                                                                                       | 20 - 22 |
| 5  | <b>Association between Matrix metalloproteinase -13 and Bacteria Isolated From Diabetic Foot Ulcers</b>                                                                                                 |         |
|    | <i>Aseel Munther Jaafar, Suha Maher Abed, Firas Faris Rija.....</i>                                                                                                                                     | 23 - 26 |
| 6  | <b>The Effectivity of Acetone Extract From <i>Carcia Papaya</i> on the <i>Leishmania trpica</i> In Vitro</b>                                                                                            |         |
|    | <i>Burhan Hasan Sultan, Ali Mohammed Abed, Rafea Zaidan Al-Sugmiany.....</i>                                                                                                                            | 27 - 30 |
| 7  | <b>Positive Correlation Between Blood Serum levels of Interleukin-8 and Interleukin-1-alpha (IL-1<math>\alpha</math>) in Pregnant Women with Cystitis in Kirkuk Governorate, Iraq</b>                   |         |
|    | <i>Fatma Mustafa Mohammed, Chateen I. Ali Pambuk.....</i>                                                                                                                                               | 31 - 35 |
| 8  | <b>The relationship of the vascular endothelial growth factor VEGFR1 concentration Level with the bacterial infection of diabetic foot patients in Samarra city / Iraq</b>                              |         |
|    | <i>Daad Abdullah Ahmed Zidan , Lina Qays Yasseen , Firas Faris Rija.....</i>                                                                                                                            | 36 - 39 |
| 9  | <b>Health Risk Assessment of Cd, Cr and Mn in Some Vegetables Irrigated by Waste Water</b>                                                                                                              |         |
|    | <i>Dalshad Azeez Darwesh.....</i>                                                                                                                                                                       | 40 - 44 |
| 10 | <b>Detection Antibiotic susceptibility and some virulence factors for bacterial isolated from Pharyngitis patients</b>                                                                                  |         |
|    | <i>Zahraa Jasim Satay, Waqas Saadi Mahmood.....</i>                                                                                                                                                     | 45 - 52 |
| 11 | <b>Design of some compounds <i>in silico</i> as proposed materials to inhibit the angiotensin-converting enzyme-2 receptor for covid19</b>                                                              |         |
|    | <i>Hasan kadhim Nimr, Eman A. Muhsin, Samaa Kh. Alhashimy.....</i>                                                                                                                                      | 53 - 62 |

**Proceeding of the Third International & the Fifth Scientific Conference of  
College of Science - Tikrit University**

**Int.3, Loc.5, Article ID:2022-P2**

|    |                                                                                                                                                                                                                                                   |                  |
|----|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|------------------|
| 12 | <b>Synthesis and Antimicrobial Evaluation of Some Mannich Base Derivatives Bearing of 1,2-Substituted Benzimidazole Moiety</b><br><i>Khalaf A. Jasim, Omar Abdullah Abd, Ibrahim F. Waheed, Fadhil D. Khalid, Andre J. Gesquiere.....</i>         | <b>63 - 70</b>   |
| 13 | <b>ISOLATION OF CUCURBITACIN E FROM BITTER APPLE (Citrullus colocynthis) FRUIT AND MEASURING THE ANTIOXIDANT ACTIVITY</b><br><i>ABEER ABDULLAH NAJIM, NOOR SAAD RAOUF, GHAYDAA ZEDANE KADHIM .....</i>                                            | <b>71 - 78</b>   |
| 14 | <b>Hartha Reservoir Quality in East Baghdad Oilfield, Iraq: An Overview and Accurate Prediction</b><br><i>Afnan Munther Al-Zoubadi, Abdalratha Mohammed Sahaab.....</i>                                                                           | <b>79 - 87</b>   |
| 15 | <b>Lithofacies and sedimentary structures studies of Injana Formation in Zakho area, Northern of Iraq</b><br><i>Hussein Zagam.Ahmed, Abdulsalam M. Al-Tarif, Lafta S. Kadhim.....</i>                                                             | <b>88 - 98</b>   |
| 16 | <b>Grain size Analysis and Depositional Patterns of Injana, Mukdadiya and Bai Hassan formations (Upper Miocene- Pliocene) in Zakho and Bijel area northern Iraq</b><br><i>Aizadeen M. Al-Hassan, Abdulsalam M. Al-Tarif, Faris N. Hassan.....</i> | <b>99 - 107</b>  |
| 17 | <b>Biostratigraphy and Paleoenvironment of Garagu Formation in Kirkuk well-116, North Iraq</b><br><i>Luay Samir Shakir, Anwar K. Mousa.....</i>                                                                                                   | <b>108 - 117</b> |
| 18 | <b>Stratigraphic and Palaeoenvironments of Jeribe Formation in Jambur-72 and Ajeel-4 Wells Northern Iraq</b><br><i>Muthanna Younis Al-Tharb, Yaseen Salah Kareem, Faris Nejris Hassan.....</i>                                                    | <b>118 - 125</b> |
| 19 | <b>Biostratigraphy and Facies Analysis of Ibrahim Formation in Balad oil field and Zurbatiya outcrop sections center and east of Iraq</b><br><i>Sawsan Al-hazaa , Yasir Kareem Jasim.....</i>                                                     | <b>126 - 138</b> |
| 20 | <b>Radiative properties of Microstrip Patch antenna at dual band and dual feed</b><br><i>Fares Saleh Atallah, Huthaifa Muhi Mohammed.....</i>                                                                                                     | <b>139 - 142</b> |
| 21 | <b>Numerical analysis of heterojunction AlGaAs/ InP thin film solar cell</b><br><i>Raed. M. Humaidan, Zuheer N.Majeed, Ashwaq T. Dahham.....</i>                                                                                                  | <b>143 - 148</b> |
| 22 | <b>Effect of ZnCl<sub>2</sub> and CaCl<sub>2</sub> Concentration on the Optical and Structural Properties of Perovskite Structure CaZnO<sub>3</sub></b><br><i>R. H. AL-Saqa, I. K. Jassim.....</i>                                                | <b>149 - 152</b> |
| 23 | <b>Study Corrosion Behavior of bioactive ceramic coated on Ti-Co Alloy</b><br><i>Zainab T. Abdulhamied, Shahlaa Jomaa, Aqeel F. Hassan.....</i>                                                                                                   | <b>153 - 159</b> |
| 24 | <b>Synthesis of Ni<sub>0.5</sub>Zn<sub>0.5</sub>Fe<sub>2</sub>O<sub>4</sub> by Chemical Precipitation Method at Different pH Value</b><br><i>Abdulsamee Fawzi Abdul Aziz, Najat A. Dahham , Omar Farooq Fouad.....</i>                            | <b>160 - 163</b> |
| 25 | <b>Co-precipitation method of superparamagnetic nanoparticles against some bacteria applications</b><br><i>Wafa Aydin Abdul AL-Latif, Hussain Salih Akbar, Husnyia Hadi Thannon.....</i>                                                          | <b>164 - 169</b> |
